

A New Mexico Story.

Michael Padilla is from the South Valley. His Grandparents helped settle what is now known as Los Padillas over 100 years ago.

“I am proud to be a Democrat because the programs created by the Democratic Party were instrumental in helping me grow up in a difficult situation”

- Michael Padilla

Michael grew up very poor and working at a young age. He was raised in foster homes, All Faiths Receiving Home, and with various family members.

Michael attended the University of New Mexico and started a business that has created thousands of jobs across New Mexico.

Michael has fought hard for early childhood education and special needs funding.

Michael has been a lifelong Democrat, and is an elected member of the state and county central committees.

Michael is walking door to door every day to meet as many voters as possible, so that he can understand the needs of the families in district 14.

Committed to service.
